Professional Summary

Aspiring Software Engineer skilled in full stack development, artificial intelligence, and machine learning. Proficient in building scalable web apps and deploying AI solutions using technologies like React, Node.js, LangChain, and HuggingFace. Demonstrated ability to optimize performance and deliver user-focused digital products.

Work Experience

Retrieval-Augmented Generation System (LangChain, Gemini, HuggingFace) | [Code](#) | [Live Link](#)

- **Challenge:** Inefficient document search and retrieval
- **Action:** Implemented a RAG system with ChromaDB, sentence transformers, and Gemini-1.5
- **Result:** Enabled high-accuracy semantic search across documents with sub-second response time

Virtual Try-On (OOTDiffusion) (Python, ONNX, CLIP, HuggingFace) | [Code](#) | [Live Link](#)

- **Challenge:** Create a real-time garment fitting experience
- **Action:** Built a virtual try-on system using ONNX for segmentation and CLIP for visual/text features
- **Result:** Deployed a Gradio-based demo with support for full/half-body models, achieving 95% model accuracy

Hybrid LMS Platform (Next.js, Node.js, Stripe) | [Code](#) | [Live Link](#)

- **Challenge:** Deliver a scalable and intuitive learning platform
- **Action:** Designed full LMS with secure payments, MongoDB integration, and live streaming features
- **Result:** Supported over 100,000 users with 99.9% uptime and seamless learning experience

Skills

- **Languages:** JavaScript, TypeScript, Python, Java, C++, SQL
- **Front-End:** React, Next.js, Tailwind CSS, ShadCN UI, Flutter, React Native
- **Back-End:** Node.js, Express.js, Spring Boot, REST APIs
- **Databases:** MongoDB, MySQL, MariaDB, Prisma
- **AI/ML/DL:** LangChain, HuggingFace Transformers, ONNX, CLIP, Gemini API, ChromaDB
- **Tools & Platforms:** Git, Docker, Stripe, Gradio, Web3, CI/CD pipelines
- **Concepts:** NLP, Semantic Search, Diffusion Models, Vector Embeddings

Certifications

- AWS Technical Essentials – Amazon Web Services
- Large Language Models – Google Cloud
- Natural Language Processing – Simplilearn
